Welcome to Issue 13 of The Acton News, your local police newsletter. In this issue you’ll find out what your local police team has recently achieved and discover their plans for the coming few months.

Following on from the success of the regular Cuppa with a Copper sessions in cafes across the cluster, this month we’re giving you the opportunity to have a cup with the Borough Commander, Chief Superintendent Paul Martin, and ask him anything you want about Ealing Police. Just enter the competition on Page 12.

We’ve also included an Acton Diary page, on which you’ll be able to find out about opportunities to meet your ward officers and speak to them face to face. The Diary also contains contact details of all the Acton Cluster Teams.

If you’re interested in developing more cohesive communities in your particular part of Acton you’ll enjoy reading about the reinvigoration of the local Neighbourhood Watch network.

Your local Police Team are here to help and advise you. They have been specifically tasked to support their Ward communities in whatever way they can and would welcome your input, as well as being happy to help and advise you.
The Hanger Hill Team have been as busy as usual taking criminals off the streets and generally working hard to protect their community.

On Friday 20th January the Team were on regular patrol around their base on Ashbourne Parade when a known drug dealer approached PCSO Syed and made a specific threat to another officer at their base. This male was the same person who had been arrested for Possession with Intent to Supply Class a and B drugs back in August 2016.

Later on the male was spotted by the Ashbourne Bar. Ward Officers attended the venue and attempted to safely detain him. He became very hostile and it took three officers to do this. Finally he was arrested at the scene for Witness intimidation.

Sergeant Marcelle then carried out a search and the man was found to be in possession of twenty snap bags of Class B and five bags of Class A drugs. He was then further arrested for Possession with Intent to Supply Class A and B Drugs.

The Team were very pleased that they had managed to get a known drug dealer of the streets again with the added bonus that this one had made threats against a Police Officer.

As Sergeant Marcelle very succinctly put it, “Hanger Hill Ward will simply not tolerate Drug Dealers on our Ward”.

Two days prior to this the Team were making their way back from a Ward Panel meeting at the Fox and Goose Pub, when they spotted a man drinking alcohol in the Hanger Lane pedestrian underpass. This area is a in a Controlled Drinking Zone where public alcohol consumption is prohibited. Officers stopped the man and checked his details. They discovered that he was very well known to police and that he was on The Registered Sex Offenders List.

The man was arrested for breaching his Court Order by PC Bhogal. He was then searched and found to be in possession of a suspicious note which suggested he might be targeting females in the area.

He was sentenced to twelve weeks in prison at Willesdon Magistrates Court the following day….another good result for the team!

On a totally different tack the Team assisted officers from Ealing Council with a Warrant concerning a
a house linked to “Housing of Multiple Occupancy”. This house, located in Waverly Gardens W3, had come to the council’s attention as sources suggested the outhouse was been used as a residential dwelling.

Pc Bhogal and PCSO Syed went with the Council Officers to the venue and discovered that the outhouse was indeed being used as a residence of sorts, as this picture clearly shows!

Seven people were living in the main house and when someone opened the door of the outhouse from the inside it was discovered that it was in fact a self contained flat!

This kind of multi occupancy is not only illegal, it is highly dangerous as all the necessary gas, electricity and general building regulations cannot be observed. The team expect their presence being requested by Ealing Council again as they crack down on many more unlicensed HMO premises.

SouthActon

The South Acton Team have been dealing robustly with some of the more disreputable members of the community while making a concerted effort to reach out and communicate with the huge number of minorities who live and work in the area. On the 19th of January Inspector Durn, Sergeant Shah and PC Young attended Ealing Police Station and took part in a teleconference reaching out to the Somali Community.

Also taking part was Commander Mak Chishty the senior Met Officer in charge of Engagement across the capital.

The Conference call involved nearly 200 people and was a chance for the community to express their concerns about a number of issues which included local policing.

The Team have successfully issued a Criminal Behaviour Post Conviction for the Possession of drugs to Mr Jagjit Rao. Mr Rao had persistently been behaving in a particular anti social manner around the Block 14 area of Ragley Close W3. These ASB issues included sleeping rough and using drugs in the stairwells, which resulted in a huge amount of discarded and potentially dangerous drugs paraphernalia
The CBO was imposed on Rao (pictured right) by Uxbridge Magistrates Court on 9th December 2016 as a result of an application made by Ealing Borough Police working in partnership with Ealing Council and the local community.

The conditions imposed on Rao by the CBO prohibit him from

1. Having in his possession or control any drugs paraphernalia, including but not limited to needles, snap bags and tin foil.
2. Entering any residential block where he does not reside without prior permission of a lawful occupant.
3. Entering any premises from which he is banned, including, but not limited to Morrisons in Ealing W5.
4. Being in a specific area of Acton W3 save for appointments, pre-arranged with Probation, Solicitors or drug agencies.

Rao can be arrested if he breeches any of these conditions. If you become aware that he is doing so please contact the police immediately.

PCSO Sarah Kearney and PC’s Dave Loveday and Chim Nweke recently went to West Acton Primary School to speak with the children there. The visit was very well received with the officers being bombarded with a whole variety of questions. In addition the officers took along various pieces of police kit, which some of the children were able to try on! The most interesting enquiry was a question regarding police ladybirds. However, while the Met is always looking to new ideas for better policing, it was explained that the training and deployment of ladybirds has yet to be considered.

The Team have continued to follow up their excellent work in combating street drinking and begging on the ward. In fact they are developing a reputation for expertise in this area, so much so that officers from Hillingdon Borough recently visited to see how the team had tackled the issues.
Several more street drinkers have been issued with Community Protection Notices, and one man has been arrested twice for subsequent breaches.

Despite the success in this area the team are far from complacent. At this time the foundations are being put in place for a summer long operation aimed at reinforcing the actions taken so far, and to look at the issues over a larger area.

One of the subjects often raised at Acton Central’s Ward Panel meetings is effective traffic management. The Team have followed this up with some strong enforcement, in particular around the use of mobile phones while driving. Further community based operations based around excessive speed are also planned

Acton Cluster and the wider Ealing Police area have suffered heavily from illegal traveller encampments. While it is important that we respect the different cultures of the community we police, there is often negative impacts as a result of these encampments. The Acton Central Ward Team recently took the initiative with just such an encampment on a disused John Lewis site. The Team attended and followed the new Ealing Borough procedure for dealing with these situations from start to finish. In doing so they managed to evict the travellers in a relatively short space of time.

Despite these good efforts, considerable damage was done to the site and a large amount of building waste dumped. The positive result was that the illegal activities were cut short, limiting the damage and clean up cost.

The Team have fed back their experiences to other ward teams within the borough along with the council to try and ensure that a speedy and positive response is provided in the future.

In addition the Team have met with representatives from Ealing Council and the Environment Agency in order to explore ways of preventing such encampments from being set up in the future, as well as ensuring follow up prosecutions in the future.

One last thing to mention is that Acton Central Twitter is going from strength to strength. If you do not already please follow us @MPSActon for regular updates as to what your team are up to on a daily basis.
The East Acton Team have been busy looking after their Ward, the largest in the Acton Cluster.

One particular piece of good news concerns the drop in thefts at Oxygen Freejumping on Kendal Avenue. The Team has assisted with the organisation of a joint advisory visit to the premises with Licensing, Health and Safety and the London Fire Brigade, and the club continues to be a successful and popular venue.

The Team was also made aware of two ward problems where dangerous parking was causing significant aggravation to the community.

The first concerned Uber cab drivers on Old Oak Common Lane NW10. Uber have an office in the Nash House Building, and this has resulted in many of their drivers parking outside on double yellow lines and in cycle lanes.

The Team spoke to Uber management and advised their drivers as to the error of their ways, while advising Council Parking Enforcement Officers that it would be beneficial to attend the area.

The other problem area was outside the Sandflames Grill at the Victoria Road and Wales Farm Road junction. For a number of years customers have parked on double yellow lines and in the cycle lane. This has resulted in a number of near misses for road users. Again the Team worked closely with Ealing Council Parking Enforcement and made a number of site visits. The volume of dangerous parking has decreased significantly and many parking fines have been issued. Most recently eight parking tickets were issued in less than twenty minutes.

The Team helped the Council Safer Communities Team evict troublesome residents at an address just off The Vale. These tenants were the cause of an enormous amount of local Anti Social behaviour and Crime, and their presence was becoming a real issue in the area.

Ward Officers have begun working closely with the MSC. This is the Metropolitan Special Constabulary, and is comprised of fully trained warranted volunteer officers who have the same powers as regular officers. Special Constables Leese and Pringle have been helping them patrol crime hotspots on The Vale, deal with Road Traffic offences and answer emergency calls.

The Team have regularly attended Street Briefings throughout the Ward, where they have met members of the public, updated them on local crime initiatives and answered their queries and concerns regarding local police issues.
On 2nd March and as a result of an application made by the Southfield Team, in partnership with Ealing Council and the local community, a Criminal Behaviour Order (CBO) was imposed on Peter Fisher (pictured below) by Isleworth Crown Court.

Fisher was arrested by the Team at the end of last year for a number of Motor Vehicle offences throughout the Ward. He attended Court on Feb 2nd but did not receive a custodial sentence.

As a result of the strict conditions imposed by the CBO however, Fisher can be arrested if he breaches any of them. The conditions imposed by the Criminal Behaviour Order state that he mustn't:

1) Touch or enter any unattended vehicle without the express permission of the owner or registered keeper anywhere in England or Wales.

2) Be in possession of more than one mobile phone that is not registered to him.

3) Be in the residential area outlined in the map of Acton W4 shown below.

4) Enter any Cash Converters or Pawn Shops within Greater London.

If you are aware of Fisher breaking any of the above conditions please contact the police immediately.

The Team have also been busy in a number of other areas. They regularly conduct what police refer to as
“Weapon Sweeps”. They do this to see if any dangerous weapons have been dumped and which could pose a danger to the general public. Sometimes these weapons have been deliberately hidden in places where criminals can find them when necessary. This avoids the risk of being caught in possession of them.

The Team were conducting a Weapons Sweep on the Beaconsfield road Estate on Tuesday 28th January when an officer discovered a 20cm kitchen knife carefully hidden under a bush.

On 8th of March Southfield Officers joined forces with officers from Acton Central and colleagues from the MSC to answer a call to an address in Acton. When they were there they were surprised to get evidence of significant drug dealing from the address. The combined team arrested a man and a woman on suspicion of possessing Class A drugs with intent to supply.

The Team conducted an extensive search of the premises and managed to seize the grand total of 94 exhibits. These included 30 bags of suspected Class A as well as 12 bottles and containers of various controlled drugs. 60 electronic items were seized for investigation after several were identified as being stolen. The two suspects were then further arrested for handling stolen goods.

As you can imagine the amount of evidence seized meant a massive amount of necessary paperwork for the officers concerned, once the suspects had been safely delivered to Custody. No one complained though as it meant that a couple of very undesirable characters had been taken off the streets.

The Team continue to meet and advise residents at their regular street briefings and popular Cuppa with a Copper meetings in local Coffee Bars. For more details of these please see the Cluster Diary.

Neighbourhood Watch

Neighbourhood Watch is alive and thriving in the Acton Cluster. Following guidelines from the Mayor's Office, the police are firmly in favour of it being fully looked after by volunteers rather than the police.

Over a year ago our Chief Inspector, Graham Durn, endorsed the appointment of Dr Suzanne Tanswell to lead on growing Neighbourhood Watch in Southfield. In November 2015, a new entity called Southfield Neighbourhood Watch was formed with the aim to improve Neighbourhood Watch by increasing both coverage and communications. Southfield now boasts 43 coordinators which is the highest in Ealing and is one of the highest in London. They statistically cover over 65% of the roads in Southfield.
Southfield Neighbourhood Watch has helped the police in crime prevention initiatives, and neighbours have felt that they can count on the coordinators, especially the vulnerable ones or those that have been victims of crime.

Southfield NHW also led on the Smartwater campaign and PC Simon Cole reported that they had achieved the highest delivery figures in the Borough.

As a result of this success, in May 2016, Chief Inspector Durn asked Suzanne to accept the task of revamping Neighbourhood Watch across the Acton Cluster and therefore replicate the success of the Southfield model.

She started the project in South Acton with the active cooperation of the Dedicated Ward Officer PC Dave Young.

She has inspired and motivated several groups who have bought into the value of Neighbourhood Watch with the support of their local Safer Neighbourhood Team. The South Acton groups include Residents Associations, Housing Associations, Community Groups, Places of Worship, Schools and Nurseries. They are all ready to see the beginnings of a safer community in partnership with their local SNT. Each group has agreed to recruit NW Coordinators from their local catchment area. The long-term aim is to have a Coordinator / scheme in each road in their areas. Early results have already come through in the Creffield Area and in South Acton Gardens.

Meanwhile, a contact person for each organisation has been appointed to receive and to disseminate police crime and other updates to their groups to achieve a total outreach of 7000. Suzanne also organised four crime prevention events, numerous Smartwater registrations and parent safety awareness talks in schools (covering online safety and bullying).

Effective communication is a critical component for the success of this project and following on from the example in Southfield, Twitter accounts now exist for South Acton, @SouthActon_NW, Hanger Hill's Twitter and @HangerHill_NW. The Cluster Twitter is @ActonCluster_NW and the original, Southfield Twitter, is @Southfield_NW.

The new models of Neighbourhood Watch are all about Commitment, Communication, Care and Collaboration. The ultimate aim is to achieve safer wards and communities.

Inspector Durn has noted:

“I was once told that an officer patrolling on foot was statistically likely to pass a burglary in progress only once every eight years - and even then they may not be alerted to that criminal activity occurring. However there have been numerous occasions that we have only been able to prevent crime and
arrest offenders through local residents spotting something unusual and promptly calling the police.”

Interview with Dr Tanswell

I recently met up with Suzanne and asked her how she had become so involved with Neighbourhood Watch.

“I have always believed in the creation of cohesive communities. Our own beginnings started with the Southfield Park Triangle RA where together, residents and committee members, worked with the Council Safer Community Team and the Police to improve safety in our neighbourhood. Soon after I was approached by the Southfield SNT, to help develop NHW in our area and to serve on the Safer Ward Panel which I have done and for 6 consecutive years.

I then asked Suzanne what she sees as the main function of Neighbourhood Watch.

“The real value of Neighbourhood Watch is to be able to provide 360° feedback between the community and the police, to increase vigilance, to share any advices that help reduce opportunities for crime to be committed, and indeed to encourage the reporting of “anything that is unusual”. Neighbourhood Watch is also not just about crime and disorder, it also brings a sense of community and care. When there is care the crime rate will drop.”

“Suzanne, Why do you think this revamp of Neighbourhood Watch was necessary?”

“From my feedback, it seemed that the public’s confidence in the police was weak and residents felt that the police had become distant. They received little or no feedback about local crime and consequently had no real involvement in community protection.”

What are the most important things that you have been able to introduce in the wards where you are engaged so far?

“I always believed that the public has a vital role in intelligence gathering and sharing and in increasing community vigilance. Both are critical components required to help the police in their fight against crime. My aim was therefore to recruit and to galvanise new active NW co-ordinators, to have a fresh start, and to give all SNTs a platform to inspire confidence in local policing.

Furthermore, we have been able to provide the police with regular opportunities to engage with the public especially in residents associations questions and answer sessions, just to be there to talk, to give advice, and to provide answers to any local concerns.”

“Suzanne, what has this actually achieved?”

“We have seen many benefits. Burglaries have gone down in Southfield and the police have most recently made two arrests in two weeks directly as a result of information provided by members of our
network. Local feedback now indicates that our neighbourhoods have started to see the police as members of the community and we have got a real readiness from the communities to engage and to support our local Police Team."

“What else is NHW doing to benefit the community?”

“The NW coordinators contribute a great deal and we have now have redefined the role to include support for victims of crime which in itself is a means of enhancing cohesion in the community. In Southfield, the NW team assisted the police and registered over 400 Smartwater kits and when I say registered, I emphasize that co-ordinators actually sat down with their neighbours and completed the registration but more importantly demonstrated the kit and marked 2-3 items for each household which also included bikes, cycles, and cars.”

“NW co-ordinators meet regularly to share good practice and their success stories with the police also attending these meetings. They listen to the co-ordinators’ feedback and provide the latest crime related insights. We have already had four meetings in our first year in Southfield. This is an activity which when replicated it will reap benefits across the entire Cluster.

The streets that are covered by ‘Neighbourhood Watch’ now have windows stickers and lamppost signs (and of course Smartwater stickers) all of which make our area far less inviting for potential offenders and even we hope, one day, a NO GO area for criminals.

“What’s next, Suzanne?”

“I am turning my attention to Hanger Hill and Acton Central. Both have very supportive Sergeants and teams plus a small team of existing NW Co-ordinators.”

“Finally Suzanne, what ideally would you like to see in the Cluster?”

“Another 200 Neighbourhood Watch volunteers! With the support of all the Sergeants and Dedicated Ward Officers I would like to expand Neighbourhood Watch and help it achieve its full potential right across the Cluster.”

“Together we can certainly make a difference!”

If you want to help and you want more information about NHW please email Suzanne at suzanne.tanswell@hotmail.co.uk
WIN A CUPPA WITH THE COMMANDER!

Following on from the successful launch of “Cuppa with a Copper” in some Acton Wards in the last few months, this is your opportunity to share a Cuppa with Chief Superintendent Paul Martin, the Ealing Police Borough Commander.

Ask him anything you want about Ealing Police, he’s promised to give as honest and accurate an answer as possible, while offering you a cup of coffee and, with a bit of luck, some cake!!

Just answer the following questions, fill in the tie breaker and e mail your answers to the editor by April 30th 2017. Although this newsletter gets translated into Polish and Somali, please answer in English, as I’m afraid the editor is not multilingual!!

**Question 1** The phonetic alphabet is a series of words the police use to specify a specific letter of the alphabet. i.e. Charlie for C. What word do we use for K?

**Question 2** The same word is used to describe a specific piece of police officers equipment and Cleopatra’s snake. What is it?

**Question 3** What is the name of the Deputy Commissioner of the Metropolitan Police? (on 26/03/15)

**Question 4** All uniformed Ealing Police Officers up to and including the rank of Sergeant have two letters on their epaulettes. What are they?

**Question 5** Which former Home Secretary introduced Community Support Officers?

**Tie Break** If I won this competition the first question I would ask the Borough Commander would be:

_______________________________________________________________________________

**How to enter**

Carefully write your answer to each question plus your tie breaker on an e mail and send it to stuart.honey @met.police.uk to arrive by April 30th 2017. The winner will be informed by May 14th 2017. A mutually acceptable time will then be arranged for your meeting with Ch. Supt Martin.

**Competition Rules**

1. One entry per reader only
2. Serving Officers and members of Police staff ineligible.
3. The Editors decision is final
4. Entries received after April will not be considered
5. The meeting with the Borough Commander will take place at a mutually agreed date, time and location

**STOP PRESS! New face at the Top**

Long-serving Inspector Graham Durn (pictured left) said goodbye to Acton last week, leaving on temporary promotion to Hillingdon Borough. Graham was a popular figure on the borough and has served Acton as the Cluster Inspector for quite some time. We wish him well.

He’s pictured handing over the baton to Inspector Aaron Clarke (right) who joins us from Peckham in Southwark Borough. Aaron spent his first week meeting the team, speaking at a local Resident’s Association meeting, and undertaking a walkabout of some of the wards he will command. Aaron said “I’m genuinely delighted to transfer across to Ealing at an exciting time. I’ve worked on neighbourhoods in Hackney Wick and Cricklewood Broadway, so I recognise the value of effective, visible neighbourhood policing. I’m really enthused by the motivation of the officers and residents I’ve met so far, who so obviously want to make Acton a safe place to live and work. I hope I can make a difference, and I’m looking forward to meeting many more people when I’m out and about.” If you see Aaron, please do stop him and say hello!
**Engagements**

**Cuppa with a Copper**

Lavelis: South Parade W4  
Wed 15 March 11am-12pm

Ward Promises

To regularly patrol all Burglary Hotspots

To tackle Thefts from Motor Vehicles and develop crime prevention initiatives to deal with them.

To regularly patrol known Anti Social Behaviour Hotspots
Every Ward in Ealing Borough has a Safer Neighbourhood Ward Panel. These Panels were set up in 2007 following an initiative by the Metropolitan Police to set up a panel of local people in each ward in London to bring a community perspective on policing and crime to the work of the Safer Neighbourhood Teams. The panels comprise of individuals elected by the community to represent their interests, the SNT and the ward councillors.

The purpose of Ward Panels is to agree and review realistic and achievable courses of action to address the issues raised by the community.

You are welcome to attend any ward panel as an observer only. Please contact your Dedicated Ward Officer first to arrange this.

If you wish to speak there is the opportunity at the yearly AGM, where you will also be able to vote for your representatives on the panel. You can also put yourself forward for election at this meeting, should you wish.

The Acton News is published quarterly by the five Acton Safer Neighbourhoods Police Teams.

All content is copyright and nothing can be reproduced without the written permission of the Editor.

Should you have any comments or suggestions please contact the editor directly.

Editor Stuart Honey
stuart.honey@met.police.uk

Ward Promises

1. Burglary

2. Anti Social Behaviour related to Alcohol

3. Theft of and Theft from Motor Vehicles
